Sock yarn 4 ply

Description

- durable, machine-wash sock yarn
- very firm sock yarn due to 4-fold twist, producing very durable socks
- the fibre is "superwash" and can therefore be washed easily in the washing machine at 40° C on delicate cycle; the sock yarn does not become matted.
- "superwash" means that the wool does not become matted due to the chemical procedure. In the process, the scales of the wool are partially detached, which prevents them from becoming hooked (= matting). In addition, the fibre is protected by a wash-resistant film.
- It renders the wool significantly less sensitive, easy-care.
- up to date fashion colours
- stripes are generated straight from the ball
